The Web Startup Group

Have an idea for a hot new software startup?
Interested in learning about new web technologies?
Want some free pizza?

Thursday, November 13
7pm, 254 TMCB

Meetings will have three parts: BizTech presentations, some FastPitches, and GroupGab. No idea what that means? Keep reading!

BizTech:

Short talks on web technologies. You know, the good stuff that you'll actually want to use one day. This month we will be talking about Google Android!

FastPitch:

Hear what other people are thinking of doing for their startup.

GroupGab:

Chat about those startup ideas you just heard about, or start your own topic. On whatever.

Oh, and there'll totally be free pizza.

Thanks to the meeting sponsor ***Instructure.com!***
